Dear Tony,

I wanted to thank you again for the work provided on Ramp B. Your staff came in and corrected the work left behind by another mechanical contractor, with diligence and professionalism, not only this, but, when the invoice came in I was delighted to see the back-up and I didn't fall out of my chair. Based on MAG Mechanical's response, I know that I am able to count on you and your crews.

I look forward to working with you on other projects.

Regards,

Matt Korus
